

True Prophecy

While our Brother Bill Curtis was given to an in-depth study of prophecy, and preparing weekly to teach a class on the same, the following words were given to him. The Spirit attending these words will witness of their Author:

“True prophecy cannot be changed or delayed. It is the benchmark of each generation and generations to come. True prophecy is the divine will of God, given through his servants for the divine fulfillment of the plan of God and the salvation of mankind. Prophecy is a statement of that which is to be and it remains as given, so that we know when it comes to pass ... (is fulfilled), it vindicates the prophet and therefore is undeniable by all, regardless of their personal beliefs.”

Your brother in Christ,

Bill Curtis
